Potential applications of conaito PPT2Flash SDK:

- Online Collaboration. Applications for online sharing of PowerPoint presentations.
- Web-based Authoring Tool which nearly works like Macromedia Breeze®.
- Learning Management Systems (LMS)
- Web Seminar. Application for presentation of PowerPoint slide shows (converted to Flash).
- Desktop applications, say authoring tools.
- Web server, say presentation server platforms.
- And much more!

Please, don't hesitate trying our PowerPoint-to-Flash SDK at once and get yourself, as well as your customers, the exciting experience of easy, fast and high quality standard applications which can convert PowerPoint into Flash.

Conaito PPT2Flash SDK is written in Microsoft .NET and provides the documentation, samples and related libraries you need to integrate with other applications or systems. The applications you develop with this edition of the SDK can run on Windows 2000, Windows XP, Windows 2003 and Windows Vista.

We hope you enjoy the new conaito PPT2Flash SDK – the Powerful and rapid PowerPoint to Flash converting solution for your applications and Websites.
